Our individual SEO services can be requested at anytime, just email support@pixolabo.com and let us know what you need.

To sign-up for one of our Monthly SEO Packages, contact us by emailing support@pixolabo.com to discuss your requirements.

Support is only offered during office hours of 9am to 5.30pm Monday to Friday. It does not cover periods when the office is closed, including weekends, national holidays and the annual office closures during Golden Week, Obon, and over the New Years Holiday period. **(Dates will be announced).**

SEO SERVICE POLICIES AND DISCLAIMERS

We are unable to promise or guarantee any specific results, including appearing on the first page of Google or Bing search results, receiving a certain number of page visits or clicks, or increased rankings for any specific keyword(s.)

Search engine optimization is an ongoing effort. We recommend that clients view SEO as a long-term strategy rather than a one-time effort. Clients with limited budgets, or unable to sustain the financial investment required, should consider a paid marketing strategy instead.

Search engines frequently change requirements, best practices, and search algorithms. We will do our best to ensure client sites meet current and future requirements. At times this may require changes to a client's website or content. In that case, we will discuss any required changes with the client.

Updates should be provided electronically (by email) as much as possible. Attachments should be in text format (.txt or Word .doc formats are fine). Send digitized pictures and graphics in common formats such as .jpg, .png, .ai, .psd, .eps, etc. Updates may **NOT** be sent by postal mail or by fax.

Client provided product or other images will receive standard image preparation for web use. Images requiring additional image preparation or manipulation services will be billed at a rate of US\$ 50.00 per hour, with a two hour minimum.

Your website may be using third-party extensions and/or services. We have no control over what third party sites do and take no responsibility for loss of information due to actions of these sites. Any changes to your site stemming from requirements and/or changes of these third party components and services will be billed at the normal maintenance rate.

Unless specifically stated in writing our support packages do **NOT** include any applicable costs and fees charged by third-party service providers. We will invoice clients separately for any applicable third-party charges and fees.

In order to provide SEO services we will require full admin level access to your website or e-commerce store.

In order to provide SEO services we may require access to client email, domain registrar, search analytics, Google Search Console, Google Webmaster Tools, Bing Webmaster Tools, email marketing, social media or other accounts. In that case we will inform the client via email why and for how long such access is required.

Clients wishing to terminate any SEO Services contract must inform us via email no less than 30 days before the end of their current service contract. If the client wishes to restart SEO services within 12 months of service termination, initial set-up fee will be waived.

Revised and updated April 2021.
