

WEBSITE SUPPORT AND MAINTENANCE PACKAGES

PIXOLABO
WEB DESIGN

LET US HELP YOU KEEP OUR WEBSITE WORKING

Getting a great website designed and built is only part of the solution for your company's online presence. What every business should have to back this up, is a reactive and responsive web support service, post launch.

Problems can and do occur from time-to-time, as web-based technology is fast-paced and continually changing. On top of this, there will always be those occasions when you will want to make urgent changes to your site prior to an important presentation, business meeting or when your products or services change.

At PixoLabo, we can offer your business a cost effective service to help ensure your business receives the technical support it deserves. We offer a range of website support and maintenance services to suit your requirements and budget, helping you to keep your website up-to-date. Our team will work with you to ensure that we provide a real-time solution that is measurable for your aims and objectives.

We look forward to helping you meet and exceed your online objectives.

WEBSITE SUPPORT AND MAINTENANCE PACKAGES

Pay-Per Incident Support - US\$ 95.00 per hour

Need occasional help updating or adding something to your website? This service is perfect for you.

- No monthly commitment. Use this service occasionally or as often as you need it.
- 5-8 business days turn around time.

Standard Website Support - US\$ 95.00 per Month

- Email Support: Send us an email when you have questions about your website and we will assist you with either written or telephone instructions.
- Up to 1 hour work on your site each month for minor changes to existing website content with all text and images supplied to us digitally. (**Unused hours do not rollover**).
- Monthly back-up of your database and site content.
- 5-7 business days turn around time.
- Additional time billed at US\$ 75.00 per hour.
- Minimum 12 month contract.

Premium Website Support - US\$ 195.00 per month

In addition to the services offered in our Essential Website Support package you will also receive:

- Up to 2 hours work on your site each month for changes to existing website content with all text and images supplied to us digitally. If you're pressed for time or resources, we can help you add or edit content on your website, with all text and images supplied to us digitally (**Unused hours do not rollover**).
- Weekly back-up of your database and site content.
- Weekly security audit & scan of site-wide files to secure and protect against your site being hacked.
- CMS Updates: We'll update your website when a new, stable release, of the CMS is available.
- Extension Updates: Updates to the latest stable release of supported extensions if required.
(**Depending on the framework your site is built in, this may require a yearly license fee for some extensions - invoiced separately.**)
- 3-5 business days turn around time.
- Additional time billed at discounted rate of US\$ 65.00 per hour.
- Minimum 6 month contract.

Platinum Website Support - US\$ 375.00 per month

In addition to the all services and features offered in our Premium Website Support package you will also receive:

- Daily back-up of your database and site content.
- Daily security audit & scan of site-wide files to secure and protect against your site being hacked.
- Up to 4 hours work on your site each month for changes to existing website content with all text and images supplied to us digitally. If you're pressed for time or resources, we can help you add or edit content on your website, with all text and images supplied to us digitally (**Unused hours do not rollover**).
- Up to 2 hours of support for SEO updates each month. If you are concerned about your search visibility and rankings we can work with you to add new content, link building, and fine-tune your on-page and on-site SEO, with all required text and images supplied to us digitally (**Unused hours do not rollover**).
(Depending on the framework your site is built in, this may require a yearly license fee for some extensions - invoiced separately.)
- Up to 2 hours of support for website pagespeed and performance optimization each month. If your website is not loading fast enough, or you experience other performance related issues, we will work with you to optimize your images, remove performance bottlenecks, and implement other site performance strategies as required (**Unused hours do not rollover**).
(Depending on your site, this may require a yearly license fee for required third-party services or extensions - invoiced separately.)
- 1-3 business days turn around time.
- Additional time billed at discounted rate of US\$ 55.00 per hour.
- Minimum 6 month contract

WEBSITE AND E-COMMERCE-SUPPORT POLICIES

We define "Maintenance and Support" as keeping the web site current. It is not intended to include a new design of your current website.

We maintain a current backup, and archive all submitted files for your website.

We reserve the right to distinguish between "**updates**" and "**new designs**". Changing existing images and/or updating existing text content are considered updates and included in our maintenance packages as stated. Changing the navigation, the adding of new pages, graphic changes, buttons, website functionality, etc., are considered new designs and charged accordingly to our hourly design rate.

IT and technical support services, such as domain and DNS support, email set-up and configuration, installing and configuring plugins and extensions, etc., are **NOT** included in our support packages, and billed at our regular hourly rate.

It is the client's responsibility to review updates and notify us of any necessary changes that we need to make. There will be no charge for any errors on our part. However, if a change needs to be made due to client error, the regular hourly update fees will be charged. Your rate is calculated on the total time involved in completing the updates.

Updates should be provided electronically (by email) as much as possible. Attachments should be in text format (.txt or Word .doc formats are fine). Send digitized pictures and graphics in common formats such as .jpg, .png, .ai, .psd, .eps, etc. Updates may **NOT** be sent by postal mail or by fax.

Your website may be using third-party extensions and/or services. We have no control over what third party sites do and take no responsibility for loss of information due to actions of these sites. Any changes to your site stemming from requirements and/or changes of these third party components and services will be billed at the normal maintenance rate.

Unless specifically stated in writing our support packages do **NOT** include any applicable costs and fees charged by third-party service providers. We will invoice clients separately for any applicable third-party charges and fees. Clients may also purchase their own third-party extensions or services and provide us with the extensions or functionality to be installed or configured for their site or e-commerce store.

In order to provide maintenance and support services we will require full admin level access to your website or e-commerce store.

In order to provide maintenance and support services we may require access to client email, domain registrar, search analytics, payment service provider, email marketing, social media or other accounts. In that case we will inform the client via email why and for how long such access is required.

Clients wishing to terminate any support contract must inform us via email no less than 30 days before the end of their current service contract. If the client website is hosted by us any service contract will be converted to the corresponding website or e-commerce hosting-only contact at the end of the current contract period.

Clients wishing to terminate a service contract and/or move their website or e-commerce store will be charged a website migration fee depending on the size and nature of their website or e-commerce store.

Revised and updated January 2023.
